

Product Sheet

Delegated Regulation (UE) n. 811/2013

Name or brand of the supplier	THERMICS ENERGIE
Model identifier	DURAN 12
Seasonal energy efficiency class of room heating (average climate conditions - low temperature)	A++
Seasonal energy efficiency class of space heating (average climate conditions - medium temperature)	A+
Rated heat output (average climate conditions - low temperature)	7 Kw
Nominal heat output (average climatic conditions - medium temperature)	7 kW
Seasonal energy efficiency of space heating (average climate conditions - low temperature)	163 %
Seasonal energy efficiency of space heating (average climatic conditions - medium temperature)	118 %
Annual energy consumption - final energy (average climatic conditions - low temperature)	5 124 kWh
Annual energy consumption - GCV (average climatic conditions - low temperature)	- GJ
Annual energy consumption - final energy (average climatic conditions - average temperature)	6 664 kWh
Annual energy consumption - GCV (average climatic conditions - average temperature)	- GJ
Sound power level (indoors)	- dB
Specific precautions	-
Additional information	
Rated heat output (coldest weather conditions - low temperature)	5 kW
Rated heat output (warmer weather conditions - low temperature)	11 kW
Nominal heat output (coldest climatic conditions - medium temperature)	5 kW
Nominal heat output (hottest climatic conditions - medium temperature)	10 kW
Seasonal energy efficiency of space heating (colder weather - low temperature)	124 %
Efficienza energetica stagionale del riscaldamento d'ambiente (condizioni climatiche più calde - bassa temperatura)	191 %

Seasonal energy efficiency of space heating (colder-medium temperature conditions)	98 %
Seasonal energy efficiency of space heating (warmer weather conditions - medium temperature)	127 %
Annual energy consumption-final energy (colder weather-lower temperature)	9 657 kWh
Annual energy consumption - GCV (colder climatic conditions - low temperature)	- GJ
Annual energy consumption - final energy (warmer weather conditions-low temperature)	2 956 kWh
Annual energy consumption - GCV (warmer weather conditions - low temperature)	- GJ
Annual energy consumption - final energy (colder weather - average temperature)	12 133 kWh
Annual energy consumption - GCV (coldest weather conditions - average temperature).	- GJ
Annual energy consumption - final energy (warmer weather conditions - average temperature)	4 158 kWh
Annual energy consumption - GCV (warmer weather conditions - average temperature).	- GJ
Sound power level (outdoor)	71 dB
