

Product Sheet

Delegated Regulation (UE) n. 811/2013

| | |
|---|-------------------------|
| Name or brand of the supplier | THERMICS ENERGIE |
| Model identifier | DURAN 15 |
| Seasonal energy efficiency class of room heating (average climate conditions - low temperature) | A+++ |
| Seasonal energy efficiency class of space heating (average climate conditions - medium temperature) | A+ |
| Rated heat output (average climate conditions - low temperature) | 9 Kw |
| Nominal heat output (average climatic conditions - medium temperature) | 8 kW |
| Seasonal energy efficiency of space heating (average climate conditions - low temperature) | 176 % |
| Seasonal energy efficiency of space heating (average climatic conditions - medium temperature) | 124 % |
| Annual energy consumption - final energy (average climatic conditions - low temperature) | 5 621 kWh |
| Annual energy consumption - GCV (average climatic conditions - low temperature) | - GJ |
| Annual energy consumption - final energy (average climatic conditions - average temperature) | 7 602 kWh |
| Annual energy consumption - GCV (average climatic conditions - average temperature) | - GJ |
| Sound power level (indoors) | - dB |
| Specific precautions | - |
| Additional information | |
| Rated heat output (coldest weather conditions - low temperature) | 6 kW |
| Rated heat output (warmer weather conditions - low temperature) | 13 kW |
| Nominal heat output (coldest climatic conditions - medium temperature) | 6 kW |
| Nominal heat output (hottest climatic conditions - medium temperature) | 12 kW |
| Seasonal energy efficiency of space heating (colder weather - low temperature) | 128 % |
| Efficienza energetica stagionale del riscaldamento d'ambiente (condizioni climatiche più calde - bassa temperatura) | 209 % |

| | |
|--|-------------------|
| Seasonal energy efficiency of space heating (colder-medium temperature conditions) | 98 % |
| Seasonal energy efficiency of space heating (warmer weather conditions - medium temperature) | 137 % |
| Annual energy consumption-final energy (colder weather-lower temperature) | 11 021 kWh |
| Annual energy consumption - GCV (colder climatic conditions - low temperature) | - GJ |
| Annual energy consumption - final energy (warmer weather conditions-low temperature) | 3 228 kWh |
| Annual energy consumption - GCV (warmer weather conditions - low temperature) | - GJ |
| Annual energy consumption - final energy (colder weather - average temperature) | 14 531 kWh |
| Annual energy consumption - GCV (coldest weather conditions - average temperature). | - GJ |
| Annual energy consumption - final energy (warmer weather conditions - average temperature) | 4 584 kWh |
| Annual energy consumption - GCV (warmer weather conditions - average temperature). | - GJ |
| Sound power level (outdoor) | 69 dB |
